

Our School Council had a busy and successful year during 2025/26, taking an active role in projects that promoted healthy lifestyles, charitable giving, pupil voice and improvements to school life.

One of our key projects was supporting the Eat Them to Defeat Them initiative, encouraging pupils to try, enjoy and learn more about a wider range of vegetables. This was complemented by our whole-school tomato-growing competition, led by our School Council. Year 5 and 6 councillors helped to plant tomato seeds for classes, before pupils from Nursery through to Year 6 took responsibility for nurturing and growing their plants.

School Council also helped us support Children in Need through our 25 for 25 Challenge. Pupils took part in a sponsored 25-lap challenge, bringing the school community together to get active while raising money for an important cause. The project was one of several opportunities for our councillors to encourage pupils across the school to get involved and make a positive contribution.

Importantly, pupil voice remained at the heart of the School Council's work. Councillors gathered ideas and opinions from their classmates, including pupils' suggestions for the prizes they would like to see awarded to our termly House winners. Pupils were also able to share their thoughts about developments to our playground and new equipment, helping us ensure that improvements to the school reflected the experiences and interests of the children themselves. The School Council presentation captures pupils' excitement about opportunities for climbing, running and developing their skills.

Our councillors also had opportunities to engage with the wider community, including a visit to the Mayor's Parlour. Experiences such as these help pupils develop their understanding of citizenship and the community around them while giving them opportunities to represent their school with pride.

We are extremely proud of everything our School Council achieved during 2025/26. Their work demonstrates the importance we place on giving pupils meaningful opportunities to have a voice, take responsibility, contribute to their community and make a difference.
